**REPLY TO RESTRICTION**

This paper is submitted in reply to the Restriction, dated June 29, 2005.

Applicant elects, with traverse, the claims directed to embodiments as shown in FIG. 3 and in which the force device is hydraulically actuated and the force device is hydraulically braked.

The claims encompassed by this election are the following:

claim 1 as well as dependent claims 2, 4-8, 10, 15, and 17;  
claim 18 as well as dependent claims 19-26;  
claim 39 as well as dependent claim 40;  
claim 44 as well as dependent claims 45-46;  
claim 47 as well as dependent claims 48-50, 57, and 59-61;  
claim 77 as well as dependent claims 78-81; and  
claim 84 as well as dependent claim 85.

It is believed that independent claims 1, 18, 39, 44, 47, 77, and 84 are generic.

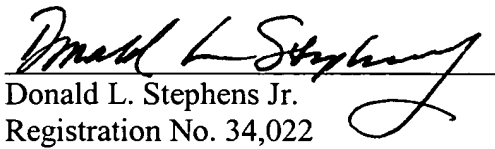

The restriction is traversed because, in view of the various generic claims as indicated above in and in view of the number of claims as filed, the restriction on its face appears to be an

arbitrary attempt to reduce the number of claims being examined. The Restriction simply contends that the alleged species and subspecies are "patentably distinct," without any evidence or reasoning being offered to support the contentions.

Applicant reserves the right to have, if any generic claim is found allowable, all claims depending from the generic claim reinstated in the instant application.

Respectfully submitted,
